PROFESSIONAL SUMMARY

Data Science professional with 2 years of experience, including a current internship at Rubixe - AI Company and previous roles as a member of the Data Science Team and Teaching Assistant at RVS Educational Trust. Skilled in building machine learning models, conducting data analysis, and creating visualizations. Expertise in techniques like regression, classification, clustering, and deep learning to generate actionable insights and drive innovation. Proven ability to collaborate with teams to deliver data-driven solutions and support decision-making. Currently advancing my knowledge through a Data Science course at Datamites Institute. Open to new opportunities in data science, with a strong focus on transforming data into valuable insights.

EDUCATION

Certified Data Scientist , Datamites Institutions	Aug 2024 - Jan 2025
M.Sc.[Computer Science] with Specialization Data Science , RVS College of Arts and Science	Jun 2019 - Apr 2021
B.Sc.[Information Technology] , Kamalam College of Arts and Science	Jun 2016 - Apr 2019
Diploma in Electrical and Electronics Engineering , Rudraveni Muthuswamy Polytechnic College	May 2014 - Apr 2016

SKILLS

- **Programming Languages:** Python, R, Java.
- **Machine Learning & AI:** TensorFlow, PyTorch, Keras, Scikit-learn, NLTK.
- **LLMs & NLP:** OpenAI GPT, Hugging Face Transformers, LangChain, Prompt Engineering.
- **Retrieval-Augmented Generation (RAG):** Vector Search, Embeddings, Document Retrieval.
- **Vector Databases:** ChromaDB, FAISS.
- **Data Processing & Analysis:** Pandas, NumPy, EDA, Statistical Analysis, Mathematics.
- **Data Visualization:** Tableau, Power BI, KNIME.
- **Big Data & Cloud:** Apache Spark, Hadoop, Google Cloud, AWS.
- **Database:** MySQL, MongoDB.
- **Version Control:** Git / GitLab.
- **Algorithms:** ML Algorithms, Deep Learning, NLP, Time Series Analysis.

EXPERIENCE

Data Scientist Intern	Aug 2024 - Jan 2025
Rubixe - AI Company	Bengaluru

- developed and fine-tuned LLM-powered applications using LangChain and GPT-4.
- Implemented RAG (Retrieval-Augmented Generation) workflows with ChromaDB for semantic search.
- Built machine learning models for predictive analytics, improving decision-making accuracy.
- Conducted data preprocessing, feature engineering, and exploratory data analysis.

TA - Data Science Team	Nov 2021 - Jun 2023
RVS Educational Trust	Coimbatore

- Conducted data cleaning, preprocessing, and model development to drive insights and solutions.
- Applied advanced ML techniques such as Regression, Classification, Clustering, and ANN/CNN.
- Collaborated with cross-functional teams to support data-driven decision-making and developed models for deployment.

PROJECTS

Conversational AI with LangChain & GPT-4

- Developed a chatbot using LangChain integrated with OpenAI's GPT-4 API.
- Utilized ChromaDB for real-time document retrieval, improving chatbot response relevance.

RAG-based Document Search System)

- Built a Retrieval-Augmented Generation (RAG) pipeline using ChromaDB and FAISS.
- Enhanced search capabilities by embedding textual data and leveraging semantic similarity.

Boiler Blow Down (01/2022 - 04/2022)

- Developed a system to optimize boiler blow down intervals using machine learning and real-time sensor data.
- Improved operational efficiency, minimized water and energy consumption, and reduced chemical treatment costs.

Nutrition Recommendation System (12/2022 - 05/2023)

- Built a machine learning model for personalized nutrition plans using regression, clustering, and collaborative filtering.
- Enabled customized dietary recommendations based on user health profiles and dietary preferences.

CIFAR-10 Image Classification using CNN

- Built and deployed a CNN model using TensorFlow and Keras to classify images from the CIFAR-10 dataset.
- Achieved 75% accuracy and evaluated performance through training/validation metrics.

CERTIFICATIONS

- Internship Certificate, Rubixe AI. – Data Scientist (Aug 2024 - Jan 2025)
- Certified Data Scientist – NASSCOM FutureSkills Prime
- Building LLM Applications using Prompt Engineering
- Artificial Intelligence and Data Science
- AI Tools and Chatgpt Workshop.
- Python Course: Beginner to Advance Masterclass.
- Python Machine Learning.
- Data Visualization Using Tableau, Power BI
- ChatGpt and AI hacks with MS Office.
- Basic Proficiency in KNIME Analytics Platform.

ACHIEVEMENTS

- **Robotryst.** Certificate of Merit, Zonal Round of Robotryst-2015
- **Guinness World Record.** Participated in the largest human representation of text in Goa, India, Feb 2019

ADDITIONAL INFORMATION

- **Languages:** English, Tamil
- **Availability:** Immediately available for data science-related roles and open to relocation.
